

Workshop

Proteins in Health and Disease: from structure to function

February 2 – 3, 2007

Faculdade de Farmácia, Universidade de Lisboa

INVITED SPEAKERS & MAIN TOPICS

N. Gregerson
(Aarhus Univ., DK)

Protein Misfolding and Disease

F. Palmieri
(Bari Univ., IT)

Mitochondrial Membrane Transporters

R. Vaughan-Jones
(Oxford Univ., UK)

Proton Channels and Transporters in the Heart

R. Wanders
(Amsterdam Univ., NL)

Fatty Acids Transport to Mitochondrion

M. Amaral
(FCUL, PT)

Coupling In Vivo Protein Folding to Exit from the Endoplasmic Reticulum: CFTR

M. Castanho
(FCUL, PT)

Mechanism of Action of Drug Membrane-Active Peptides

C.M. Gomes
(ITQB, PT)

Protein Folding Destabilization and Disease Phenotypes

P. Leandro
(UBMBE, PT)

Chemical Chaperones in Protein Folding Disorders: PAH

D. Penque
(INSA, PT)

Proteomics in Biomarkers Discovery for Chronic Lung Diseases

M.J. Romão
(REQUIMTE, PT)

The Role of the Molybdenum Cofactor in Human Health

M.J. Saraiva
(ICBAS, PT)

Heat Shock Response in Misfolding Disorders

G. Soveral
(REQUIMTE, PT)

Aquaporins Water Channels: from Structure to Disease

DISCUSSION / CROSS-TALKS

The programme was designed to promote the discussion /exchange of ideas by:

- **Plenary discussions**
 - **Oral presentations**
 - **Poster viewing with chairperson**
 - **Meet the experts:** informal roundtables in which small groups of senior and junior researchers get an opportunity to brainstorm ideas for current problems in their area of protein research .
- We invite you to submit a topic for discussion (visit the website)

Organizing Committee

I. Tavares de Almeida (Chair) (UBMBE- FFUL)
G. Soveral (co-Chair) (FFUL / REQUIMTE)
P. Leandro (UBMBE – FFUL)
F. Ventura (UBMBE – FFUL)

Secretariat

Rita Costa
Protein Workshop
Faculdade de Farmácia da UL
Av. Prof. Gama Pinto
